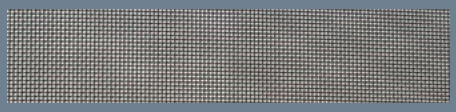
Screens

Fly Screens

Flyscreens are a practical and affordable way to cover the open area of your windows and doors, helping to keep your home free from flies and other insects. Our flyscreens are constructed using an extruded aluminium frame and standard fibreglass mesh.

Barrier Screens

Barrier screens offer an economical, intermediate level of security for your home. Our barrier screens feature black Armagrille (diamondshaped, aluminium grille), fibreglass mesh and aluminium frame and comply with the Building Code of Australia - Protection of Openable Windows requirements.



Crimsafe Screens

The integral high-tensile, stainless steel mesh of Crimsafe screens provide a superior level of safety and security to your windows and doors. They are discreet in appearance ensuring your views are unhindered and comply with the Building Code of Australia - Protection of Openable Windows requirements.
